

MS TOPCOAT® A4 POWDER GUN

Advanced Manual Powder Coating Gun

ms

All of the advanced technology and functionality of the new MS topcoat gun range has been packed into our compact MS topcoat A4 automatic powder gun. Representing the very latest in advanced powder coating, the new MS topcoat® A4 automatic powder gun offers uncompromising high performance and operational efficiency.

Its lightweight design utilises the MS topcoat principles to reduce energy consumption in machine, reciprocator or robot mounted applications.

When combined with the MS topcase S4 controller, the MS topcoat M4 produces a class-leading electrostatic charge within the powder stream ensuring high transfer efficiency. Advanced microamp feedback technology within the gun and controller ensures a high quality finish with less back ionisation.

MS topcoat A4 is designed with a minimum number of replacement parts for ease of cleaning and simple maintenance, thus further reducing costs and ensuring reliability and long life. A wide range of nozzles, extensions and accessories are available and the gun body can be extended using a tube and click system.

Take a test today and see why the exciting new MS Topcoat A4 Automatic Gun offers the best value and efficiency in today's powder coating market.

New topcoat M4 Powder Gun

Advanced technology gives high quality finish with less back ionization.

Compatible with all commercially available powders including metallic flakes

Simple design gives industry best fast colour change
